bridges. The construction was to be done speedily with the help of volunte labor brigades and, if need be, with help of military personnel. *	oad s te
1 Comment. In August 1950 civilian motor	r 25
vehicles and horses in the area of the Presov military subdistrict headquary were registered. The meaning of the term zalistovany is not clear. It probably does not mean the commandeering and assignment to military military may be a notification stating the unit to which previous registered vehicles and horses have to be turned in if occasion arises. The is a military measure preparatory to mobilization and facilitates and accelemble mobilization procedure.	rters ot quite tary sly nis
